Education

Computer Programming and Analysis Advanced Diploma(co-op).

Sept 2021- Present

Seneca College- Toronto, Ontario

- CGPA: 4.0/4.0
- Presidents Honour List for 4 semesters
- *Relevant Courses:* Data Structures and Algorithms, Web programming, *Cloud computing, Object Oriented Programming, *Mobile App Development (IOS), Advanced Database Services, *Application Development.

Projects

Art Explorer (Full-Stack)

Feb 2023- Apr 2023

Coursework ([Website](#)) - ([Github](#))

- Designed and created a responsive web app using React, Next.js, Node.js, and Express.js.
- Implemented user registration, login, and JWT-based route protection for secure access and ensuring user privacy.
- Delivered a visually appealing, responsive UI, and ensured a consistent user experience across various devices and screen sizes.
- Deployed the application on Vercel, increasing accessibility.

Movie Web API (Back-End)

Jan 2023

Coursework ([Website](#)) - ([Github](#))

- Developed a robust Web API using Express.js for a MongoDB Atlas database.
- Implemented RESTful API endpoints, including POST, GET, PUT, and DELETE methods for CRUD operations on movie data.
- Demonstrated proficiency in connecting to MongoDB Atlas clusters and handling data operations.
- Successfully deployed the API to the Cyclic platform, ensuring seamless access and scalability.

Personal Portfolio Website (Front-End)

Sept 2023

Personal Project ([Website](#))-([Github](#))

- Designed and developed a responsive web application using React.js, creating an engaging and adaptable user experience, while utilizing Tailwind CSS to ensure visually appealing and interactive design elements.
- Designed an intuitive navigation menu with smooth scrolling and a mobile-friendly interface, enhancing the user experience across various devices and screen sizes.
- Developed a functional contact form, configured to submit data to an external endpoint for inquiries and feedback.
- Implemented various sections, including a dynamic hero, portfolio showcase, contact form, and skills display, to provide comprehensive content and interactivity.

Work Experience

Whole Foods Market

Sep 2017 - Present

- Provided immediate and undivided attention to every customer, consistently delivering delightful food experiences.
- Ensured the freshness and appeal of products by maintaining clean, well-stocked cases and shelves through front-facing, code checking, rotation, and removal of out-of-date items.
- Organized and managed backstock efficiently to ensure a well-organized storage area.
- Collaborated closely with colleagues to ensure the timely and efficient completion of daily tasks, showcasing my ability to work harmoniously within a diverse and dynamic group.

Technical Skills

Programming Languages: JavaScript, C++, Java, SQL.

Web Development and Cloud Computing: React, HTML5, CSS, Tailwind CSS, Next.js, Node, Express, Bootstrap, MongoDB, *Amazon Web Services (AWS).

Tools & Technologies: Git, Visual Studio, VSCode.
